## FOUNDATION STAGE NEWSLETTER

Welcome to all of you who have just joined our Foundation Stage family, whether it is your first experience with us or you are a returning face! May I just say what a lovely start to term it has been - so many happy faces and excited children!

The Foundation Stage comprises of three classrooms for Nursery, Pre-School and Reception classes with a shared indoor play area and an art room. This year, all classrooms are conveniently located on the ground floor of the main building. The previous office room has had a 'makeover' and is now a modern Nursery room with attractive wall displays.

All the classes have settled into their new routines already and the children are responding wonderfully to their new environment. They are already forming strong friendships with peers and staff.

They have also got to know the resources through play and by exploring lots of activities. We are so pleased with how the children settled in over the past weeks and very proud of the progress they are making.

The Foundation Stage team work effectively together to support children's learning and development and also work hard to ensure that all children feel safe and happy in school. I have every confidence that we have a wonderful year ahead of us. We are happy to answer questions, listen to concerns or to hear about the achievements of your child. We are really looking forward to an exciting year and we are sure that the children will have lots of fun in their learning journey.

**Many thanks for your support.  
The Foundation Stage Team**
